

Needs Assessment

God's work is evident through many Christian organizations that are currently in operation on various college campuses, and we desire to ensure that HIS is the organization that meets the needs of your campus. Therefore, we will carefully review the needs assessment of your campus while considering the missions and functions of HIS. Please note that we will work to find the right organization for your campus if it does not seem that HIS will meet your prescribed needs, because it is our goal to see God glorified and not to see the growth of HIS. We are excited that you have sought us out, and we feel humbled and excited at the prospect of seeing God use the instrument of HIS to further His kingdom on your campus.

1. Please state the needs of your campus that are leading you to seek out HIS?
